A representative will be on hand sale day if your wishes are to insure your purchases. Please note: The sale manager is only an agent for the seller and has no responsibility other than those involved in conducting the sale. All persons who attend the sale do so at their own risk. Neither the sale manager nor P Bar S assume liability, legal or otherwise for, any accidents which may occur.

# PBAR S

Dear Limousin Friends and Enthusiasts,

It is an honor for me to invite you to our 4th annual Limousin and Lim-Flex Production Sale. On behalf of me and the entire Ranch crew we are excited to have you look through this sale catalog and are in hopes you will attend the upcoming sale on October 1. The entire staff at P Bar S take a lot of pride in creating what we feel is some of the breed's finest Limousin and Lim-Flex cattle. For many years we have been seedstock producers and propagators of this great breed of cattle.

As you view the sale catalog we think you will find a diverse offering of Lim-Flex and Purebred cattle that backed with proven, predictable pedigree's and well above breed average epd's.

If any of us at P Bar S or any of the sale staff can assist you with your questions then please don't hesitate to call. We love to talk Limousin and are always available to show you around the Ranch.

See you on the 1st,  
Paul Sisemore  
P Bar S Ranch

- WOW! What a beautiful show heifer prospect.
- This female is deep in her rib and bold in her shape, she is level from her hooks to pins, has plenty of bone and is big footed.
- We love the design of this female and you can rest assured that after her show career she will make a tremendous cow.
- This 50% Lim-Flex is sired by MAGS Landmark who was a top selling Wulf's Titus son from the 2010 Magness bull sale going to Milam Cattle Co. in Kentucky.

# NORTH AMERICAN LIMOUSIN FOUNDATION

## EPD and Performance Information

The EPD's in this catalog reflect the new base used to calculate EPD's for Limousin cattle. They now have the same look as Angus EPD's. For commercial producers this rescaling helps simplify the use of Limousin EPD's by managing the set of ranking benchmarks similar of both breeds. While EPD's of the two breeds cannot be directly compared, if you know the benchmark within the Angus genetic evaluation, you also know the EPD benchmarks within the Limousin evaluation. Twice a year EPD's are recalculated to include any new data that has been submitted to NALF. This is done to keep them up to date and improve accuracies. With this in mind, expect EPD's to change on the animals you purchase. The EPD's for the LimFlex calves reflect the combined EPD's of the Angus Assoc. and the current information in the Limousin EPD bank from the sires and dams of that breed. As this is a fairly new development, the accuracies will be low.

### PERFORMANCE EPD' s ...

- CE: Stands for calving ease direct and is important when choosing sires to produce calves born easily. The higher the number, the better.
- BW EPDs: Express the difference in birth weight on the progeny of the bulls being compared.
- WW EPDs: Express the difference in pounds at 205 days on the progeny of the bull being compared.
- YW EPDs: Do the same as WW except it is the weight at 365 days.
- MA EPDs: Predict differences in weaning weights from daughter's calves due to genes inherited for milk.
- CETM EPDs: Stand for Calving Ease Total Maternal and are important for choosing sires that produce replacement females that give birth to their first calf easily. The higher the number, the better.
- SC EPDs: Are expressed in centimeters of scrotal circumference, and compare the difference expected in sons of the animal. Scrotal EPDs are a good indicator of age of puberty of both the sons and daughters of the animal.

### CARCASS EPD' s ...

- CW EPDs: Express the difference in pounds of carcass weight.
- REA EPDs: Express the difference in square inches of rib eye area.
- YG EPDs: Due to the limited range and usefulness of Limousin in fat thickness EPDs, they have been replaced with the more informative EPDs for yield grade I. YG EPDs are favored and indicate genetic differences for yield grade and cutability of offspring.
- FAT EPDs: Express the difference in the inches of back fat.
- MS EPDs: Express the difference in the amount of marbling or flecks of fat in the rib eye.
- \$\$ VALUE
- INDEXES: Used to rank animals according to net genetic merit for profit from genetics for post-weaning growth and carcass performance.

# Crossbreeding, the only FREE Lunch in the Cattle Business

## The Benefits of Hybrid Vigor without the Hassle:

### Crossbreeding made easy with Lim-Flex

Crossbreeding for the right blend of muscle, maternal ability, and profit just got easier. Introducing registered Lim-Flex seedstock, the pedigreed blend of 25-75% Limousin with Angus (black or red). The muscle and cutability of Limousin with marbling and fleshing ability of Angus, creates a product that translates into profit from the pasture to the rail.

**Lim-Flex takes the hassle out of crossbreeding.** Lim-Flex provides just the right shot of Limousin and Angus to excel in any market, without the extra management of rotational crossbreeding. Whether you're breeding calves to sell through Strauss Brands, CAB, or the local livestock market, Lim-Flex not only fit but can top the market, and NALF is here to help. Contact NALF's Commercial Marketing Department for more information on its marketing programs.

*"Not only do Lim-Flex females offer unprecedented longevity, but they are extremely fertile and maternally inclined."*

~ Andy Bailey,  
Star Valley Ranch, Hiko, NV

### Progressive producers recognize the advantages of hybrid vigor

- 20% more pounds of calf per cow exposed (due to hybrid advantages in age at puberty, conception rate, survival to weaning, milk production, and weaning weight)
- 1.3 years of additional cow longevity
- 30% greater lifetime production
- Increased fertility and decreased gestation length with hybrid bulls

### Lim-Flex Advantages

- Flexible seedstock for simple, easily managed crossbreeding
- Flexible marketing options to maximize profit
- Flexible market progeny that consistently hit dressing percent, along with yield and quality grade targets for mainstream markets
- Flexible females adapted for efficiency across a wide range of environments

*"Our cattle have to be stout, easy fleshing, maternal, and able to fend for themselves. Lim-Flex do this better than any other type of cattle we've ran."*

~ Casey Deuter, Deuter Ranches, Ree Heights, SD

We care about **Calves**

We care about **American** Farmers

We care about American **Ranchers**

We care about the **Environment**

**We know you CARE, too.**

## Now Buying Limousin-Cross Calves.

- Hot-carcass-weight bonus.
- Equal value for heifers, steers, and bulls.
- Purchased straight off the cow before weaning.
- Increase returns; save time and labor.

Booking weekly truckload deliveries of all-natural, hormone-free, veg-fed, source-verified, pre-weaned Limousin calves. Contact a Strauss representative today to learn more.

# Fight fat, flat & 4s

*Reduce excess fat, add muscle to flat-made cows, and minimize the chance of Yield Grade 4. Limousin delivers improved feed conversion, industry-leading dressing percentage and fewer discounted carcasses.*

*Generate more dollars with 21st century Limousin.*

## Plus...

Hybrid vigor in the best cross with British breeds

Heavy weaning weights & efficient gain

Uniform size & color

Problem-free calving, calf vigor & livability

Documented improved docility
